**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Winds will reach 80 mph or more across the Cairngorm Plateau at first with widespread upland gales. Winds will moderate by evening. Significant wind chill expected too. Making progress will be slow with a risk of being blown over.

Forecast for Saturday 07 Oct 2023

Weather: Cloudy and rather cold throughout the day with persistent rain, this heavy at times especially in the southwest of the area. There's a chance that rain may turn to sleet and snow for a brief time. Rain may ease off through the evening.

Maximum wind: Easterly 20 mph with gusts to 30 mph on the tops

Chance of cloud-free hill tops above 800m: 30%

Low cloud and visibility: Poor in extensive cloud down to 500 to 800 metres, some breaks possible towards west of the A9

Temperature: **Glens:** Plus 6 rising to 9 Celsius
At 800m: Above summits, but may fall to 1100 metres for a time
Freezing level: Above the summits
